## ADD INSTANT & EVERLASTING CLASS & PRESTIGE TO YOUR HOME WITH THE PREMIUM BENJAMIN MOORE PAINTS

Made with the exclusive Colour Lock® technology and available in 4 different sheens (Matte, Eggshell, Satin, Semi-Gloss), this **best-in-class premium paint** offers you a velvety, beautiful and durable finish -- plus a **healthy environment for your whole family, because it contains zero VOC (volatile organic compounds)**.

### SPECIAL FEATURE THIS ISSUE

#### Warm to Cool: Selecting the Just-Right White

Warm whites have undertones of red and yellow, resulting in a soft glow and welcoming mood. A warm white like **Benjamin Moore's Simply White OC-117** has a soft yellow undertone that adds a touch of life in your home, without adding too much 'colour'.

For a more versatile option, go with **White Dove OC-17** which accommodates a lot of different colours. While it is still a warm white, it has an almost greige base which makes it a more neutral coloured off white.

Cool whites have undertones of blue, green and grey, creating a space that looks crisp, clean and luminous. **Decorator's White OC-149** has a classic grey/blue undertone that is perfect if you wish to decorate with tones of grey, charcoal or blue on your walls.

For a fresh and clean look, go with the **designers' favourite Chantilly Lace OC-65**. It is a popular choice for a pure, bright white which works well for a modern look.

Explore what different colors look like in your space using Benjamin Moore's Personal Color Viewer tool [here](#).

## WORKING WITH AMAZING INTERIOR DESIGNERS CREATING AMAZING COUNTERTOPS

The kitchen provides the heartbeat of every happy household. It is where a family feeds; not only on physical nourishment but emotional ones as well. At AURASTONE, their mission is to help you complete the perfect heart for your home, starting with the focal point of every kitchen -the countertop.

The countertop is not just a piece of stone in the middle of a room. **It's where your family will gather and grow, where you cement friendships, and where many of your pleasant memories will center around.**

You deserve the best, and AURASTONE lives by three pillars to ensure that you get it - **Excellent Workmanship, Friendly Customer Service and Quality Materials.**

As a fast-growing Quartz and Granite brand, AURASTONE is at the forefront of the industry when it comes to innovation and value creation. The birth of their **revolutionary leakproof AURA SINK** is proof of AURASTONE's commitment to innovation.

In short, they strive to create value with every step.

No detail is overlooked when AURASTONE helps you build your dream kitchen countertop. Their experienced craftsmen and support team work very hard to ensure every completed set leaves you beaming with pride. They have the right expertise, tools, and machinery to support their great stone masonry from fabrication to installation.

## THE EXCELLENCE OF ITALIAN DESIGN AND A PASSION FOR YOUR HOME

Style, for Smeg, is a distinct concept: the way a product communicates with its surroundings and enables users to interact with it.

Attention to detail and design solutions bring homes that reflect the image of their occupants to life. **With Smeg, appliances take centre stage in the heart of the home, a place where people can congregate.** The kitchen integrates all of their functions and becomes a perfect, fully-equipped backdrop for those precious and enjoyable moments.

**Know-how, creativity and style: these are the qualities that spring from Smeg's Italian identity and characterise the company's commitment to bringing everyday objects to life.**

Of course, aesthetic reasons aside, Smeg's identity is an expression of its actual Italian origins and the fact that the company is passionate about what it does. Smeg aims to and identify and reflect the defining characteristics of Italian design, such as inventive elegance, originality and product quality.

Smeg appliances are thus snapshots of Italian style, from the retro 50s refrigerators to steel-only cookers, and are able to shape trends and tastes and establish a rapport with the user that goes beyond mere practical concerns. With this philosophy in mind, the firm has embarked on projects with leading designers and architects and internal development programmes which assess current tastes and market trends.

## YOUR ULTIMATE LUXURY INDULGENCE WITH AMPERADO

Amperado brings you the best quality marble furniture and home accessories – so you can add instant prestige and class to your homes and commercial establishments.

### SPECIAL FEATURE THIS ISSUE: GRACEFUL FIG

The fabrication technique begins with the translation of the digital 3d model into a rattan formwork. This rattan formwork serves as a basis to construct a composite structure of aluminium honeycomb and stainless steel rods.

This combines to create a rigid yet tensile structure that maximises the long span of 2 meters despite the thinness of the structure. Thereafter, 2mm thick slices of book matched Portoro Gold marble blocks are painstakingly heated and bent over the formwork.

The craftsmen immaculately bend the marble, layer by layer, over the formwork, akin to the way that marble forms through years of sedimentation as well as the way the graceful fig shell grows their protective shell, layer by layer.

Once the top layer of Portoro Gold is set in place, the rattan formwork is removed and the underside of Graceful Fig is layered again. The grains between segments of slices are matched to perfection and lovingly buffed to remove any seams and realize the ethereal elegance of Graceful Fig.
